Atif Khan is a very emotional and intelligent kid. He lost his father few years before in 2017 because of a fatal heart attack. He was very much upset to talk about his father; He was sensible when his father was dying. He can see and feel the deepness and soreness of the lost. He said that his father told him that he envisioned for him to be a doctor. Now I am in class 9th and want to be a heart surgeon because I lost my father because of heart diseases and I don't want the other children to lose their father to be dying because of heart diseases, thus I want to be a good surgeon and serve my people and wish to make true the dream of my father.
